

CHAPTER REVIEW EXERCISES

REVIEW 1

Identifying Types of Sentences

See Online Teaching Center for printable answers. Go to college.hmco.com/pic/brandonSPB5e.

Indicate the kind of sentence by writing the appropriate letter(s) in the blank.

- S simple
 CP compound
 CX complex
 CC compound-complex

Underline the verbs and circle the subjects. Consider using labeled boxes as shown on page 61.

- S 1. For more than forty years, dolphins have served in the U.S. Navy.
- CX 2. Dolphins use echolocation, which involves transmitting sound waves at objects and then reading the “echoes” from those objects.
- S 3. They can distinguish a BB pellet from a kernel of corn from fifty feet away.
- CP 4. They can also tell the difference between natural and man-made objects, so the navy has trained dolphins to detect explosive anti-ship mines.
- CX 5. After unmanned undersea vehicles use sonar to identify suspicious objects, a dolphin and his team of humans go into watery combat zones to evaluate those objects.
- CC 6. When a dolphin positively identifies a mine, the location is marked, and divers arrive later to remove the mine.
- S 7. During the 2003 war with Iraq, dolphins helped to disarm 100 mines and underwater booby traps planted in the water near the port city of Umm Qasr.
- CX 8. The dolphins are not in jeopardy because they are trained to stay a safe distance from the mines.
- CP 9. Dolphins also protected warships during the Vietnam War; in 1970, for example, the presence of five navy dolphins prevented enemy divers from destroying an army pier.
- CC 10. Many people do not realize that dolphins have used their extraordinary abilities to protect American lives during wartime, so the navy considers them to be very valuable assets.
